## Summary

---

I'm a full stack software engineer based in Las Vegas, Nevada with multiple years experience working on the frontend and backend with JavaScript, TypeScript, and Ruby. My passion for learning, and problem solving, drew me to this field and makes me eager to explore new languages, frameworks, and tools.

## Experience

---

**Software Engineer, Open-Source Projects** 2021 - Current | Remote

- Personal Portfolio: A personal portfolio site to showcase my projects (Next.js, React, CSS Modules)
- Todos: An application to manage todos with dynamic filtering based on dates and completed todos (JavaScript, Handlebars, Node.js, SQLite3)
- Music Lesson Planner: A RESTful web application backed by PostgreSQL for managing and viewing music students and lesson schedules (Ruby, Sinatra, PostgreSQL, ERB)

**Elementary School Teacher, CCSD** 2021 - Current | Las Vegas, NV

- Craft and present engaging lesson plans and activities for 20-30 students
- Observed and evaluated students' performance, behavior, social development and physical health
- Evaluated and revised lesson plans and course content to facilitate and moderate classroom discussions and student centered learning
- Discuss students' academic progress, goals, and classroom behavior with guardians

**Sub Section Cello, Las Vegas Philharmonic** 2022 - Current | Las Vegas, NV

- Performed various genres of music, as part of the cello section, for different conductors and audiences
- Worked closely with cello section members to unify musical choices made by the conductor and principal cellist
